EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In paragraph 0001 of the specification insert the following after "March 27, 2001,": "now U.S. Patent No. 6,682,426".

Allowable Subject Matter

Claims 1, 3, 4, 6, 7, 9, 10, 12, 13, 15, 16 and 18-42 are allowed over the prior art of record. They have been renumbered as claims 1-36.

The following is an examiner's statement of reasons for allowance: While the prior art teaches of game controllers including some with vibration units as in Nishiumi, none of the prior art discloses the vibration unit in the grips of the controller. Furthermore, it would not be obvious to combine Chen with Yokoi to meet this limitation since Chen relates to force feedback of a joystick handle and if applied to Yokoi, motors would have to be attached to the input member (i.e. the joystick handle) to provide the feedback which is contrary to Applicant's claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

It has been noted that claims 1, 4, 7, 10, 13, 16 and 19-24 have been amended. Claims 2, 5, 8, 11, 14, 17 and 43-46 have been cancelled.

Response to Arguments

Applicant's arguments, filed November 12, 2004, with respect to the claims have been fully considered and are persuasive. The rejection of the claims has been withdrawn due to the arguments and the amended claim language.
